**CERTIFICATE OF NEED
FOR THE
ALASKA REGIONAL HOSPITAL
Neuroradiology Catheterization Laboratory
BY
ORDER OF THE COMMISSIONER**

In accordance with provisions of A.S. 18.07.031-111 and 7 AAC 07.010-130, Alaska Regional Hospital is authorized to spend \$2,150,000 to build and equip a dedicated neuroradiology catheterization laboratory. The approved completion date for the project is December 31, 2007.

Approval is conditioned upon Alaska Regional Hospital performing interventional and therapeutic neuroradiology in accordance with the most recent standards and guidelines developed by relevant specialty societies, including the American Society of Interventional and Therapeutic Neuroradiology (ASTIN) and the Society of Interventional Radiology (SIR). When available, standards related to the training and qualifications of interventional physicians or surgeons; maintenance of proficiency of those physicians, technical staffing, and interventional suite requirements; the necessary additional medical staff and facilities required for back-up care; and quality assurance programs should all be adhered to.
