Re: Letter of Intent for Two Catheterization Labs

Dear David,

Providence Alaska Medical Center intends to submit a Certificate of Need application for two Catheterization Labs for an estimated cost of \$4,531,066. The first lab will be operational in May 2007. The second will be operational in August 2007. This is a competitive application with Alaska Regional's application for a cath lab.

We look forward to working with you through the application process.

Sincerely,

Lisa Wolf
Planner
Providence Alaska Medical Center
