

# Proposal

<i>Date:</i> 1-20-26	<i>To:</i> CBRE-P
<i>Prepared By:</i> Brian Humphrey	<i>Attn:</i> Lindsay Lloyd
<i>Project:</i> <b>C607875 Alaska Heart Cath Lab Cabling</b>	<i>Proposal No.:</i> AS 26002

Fullford Electric Inc. is pleased to provide our estimate for electrical services in support of the following:

**Proposal Clarifications:**

1. Our quotation is based on after-hours work nights or weekends.
2. Pricing assumes that cabling can be pulled from inside the Cath Lab without having to enter the ICU below. If complications with this approach are experienced, a re-quote will be required.

**Proposal Includes:**

1. Electrical demo of existing cables as needed (cables to be identified/marked by Alaska Heart IT).
2. Installation of (1) each Cat 6, Cat 7, and power cables provided by Alaska Heart IT.
3. Project field coordination and documentation.

**Proposal Excludes:**

1. Infection control or deep cleaning/sterilization.
2. Repair/replacement of existing equipment.
3. Provision and installation of conduit (using existing pathways).
4. Electrical, seismic or other engineering.
5. Patching, painting and painted ID.
6. Finished surface protection, installation, repair, or replacement, including t-grid ceilings.
7. Code upgrades to existing electrical items or systems.

**We hereby propose to furnish material and labor as described above, for the sum of: **\$4,105.00****
