RE: Fairbanks Memorial Hospital – PET CT CON Application dated August 26, 2024

Dear Ms. Ebenal,

A completeness check conducted on Fairbanks Memorial Hospital's (FMH) recently submitted CON Application (noted above) revealed that the Office of Rate Review (ORR) requires a minor clarification from FMH to conduct its Impact to Medicaid Analysis. This Analysis is a section the overall CON Staff Analysis and Recommendation of all CON Applications submitted and reviewed by the department.

Specifically, ORR seeks clarification pertaining to Schedule I. Projected Income Statement. Located on Page 35 of FMH's CON Application, FMH provided "Net Patient Revenue". The CON Application breaks this out by different service lines, i.e. "Inpatient Routine, Inpatient Ancillary, Outpatient...etc."

ORR requests that FMH provide, at a minimum, projected revenue broken out by "inpatient" and "outpatient".

Once we receive this clarification, we will move forward with declaring FMH's CON Application complete.

Please let me know if you have any questions, whatsoever.

Kind regards,

A handwritten signature in black ink, appearing to read "Alex Hicks".

Alexandria Hicks, Healthcare Access and Services Development Manager
