Good Afternoon Alexandria,

Per your request, attached is certification from the contractor who constructed the tenant improvements for the space that will be leased by Alaska Medical Center, LLC at 188 W. Northern Lights Blvd. Please let me now if you have any questions.

Thank you,

Tina Presley

Tina:

It is my understanding that Alaska Urological Institute is planning to lease on a monthly basis, approximately 65% of the total space AUI currently leases on the first floor at 188 W. Northern Lights Blvd., to a new surgery center. In addition, AUI intends to lease on a monthly basis the tenant improvements associated with that same space.

At your request, I have reviewed the detailed costs of all the major tenant improvement items included in the buildout of AUI's first floor space, which included electrical, generator, plumbing, medical gas, HVAC and concrete.

Based on my analysis, I believe that 65% of the overall tenant improvement cost of \$2,986,439 is an accurate representation of the tenant improvement cost AUI intends to lease to the surgery center.

If you need further information, please let me know.

Good luck in the future!
